

SEUNG-HWAN (PETER) BANG

Product Manager & Technical Leader

Toronto / Richmond Hill, ON | 1-647-679-5919 | ceng686@gmail.com | linkedin.com/in/seunghwanbang | https://peterbang-tech.github.io/Seunghwan-portfolio/

PROFESSIONAL SUMMARY

Outcome-driven Product Manager with 15+ years of experience governing end-to-end device lifecycles, endpoint provisioning, and global regulatory compliance across telematics and wireless ecosystems. Proven track record of managing enterprise hardware/software roadmaps for deployments exceeding **4M+ units** and securing approvals with global Tier-1 carriers and defense entities (USAF MIL-STD-461G). Adept at defining product requirements (PRDs), synthesizing customer pain points, and partnering with engineering/design to streamline administrator experiences from enrollment to fleet-level visibility. Leverages GenAI productivity platforms (ChatGPT, Gemini, Claude, NotebookLM) to accelerate technical research, prompt optimization, and product execution.

CORE COMPETENCIES & TECHNICAL EXPERTISE

- **Product Management & Fleet:** Device Access & Lifecycle Governance, PRD/User Story Definition, Admin Experience Optimization, Fleet Visibility, Provisioning & Enrollment, EVT/DVT/PVT Roadmaps
- **Compliance & Security:** Regulatory NPI (FCC, IC, CE, PTCRB/GCF), Defense Security (USAF MIL-STD-461G / E3 HERO/HERP/HERF), Safety (IEC/UL, UN38.3), Environmental (RoHS/REACH)
- **Diagnostics & Data Analytics:** Modem Log Diagnostics (QXDM, Wireshark, QCAT), Defect Troubleshooting, Product Telemetry Analysis, Root-Cause Mitigation
- **AI & Software Tools:** GenAI Productivity (ChatGPT, Gemini, Claude, NotebookLM, Prompt Engineering), Python, SQL, JavaScript, HTML, XML, iOS, Android, Windows Mobile, RTOS
- **Enterprise Systems:** Salesforce CRM, AWS / Azure (Cloud IoT Data Concepts), MDM Ecosystem Concepts (Intune/Omnissa), Jira, Confluence, Agile/Scrum Project Governance

PROFESSIONAL EXPERIENCE

Product Certification PM — **GEOTAB** (Oakville, ON)

Aug 2021 – Jan 2025

- Governed end-to-end product roadmaps for Geotab's global telematics ecosystem, driving hardware and firmware lifecycle management across **4M+ unit deployments** in North America, Europe, and Oceania.
- Defined and executed product qualification strategies, translating complex regulatory and network specifications into actionable product requirements for engineering teams.
- Led the USAF security and certification roadmap for GO9B, ensuring full compliance with MIL-STD-461G and E3 safety/security standards (HERO/HERP/HERF).
- Streamlined APN/SIM provisioning logic and endpoint activation workflows, significantly reducing onboarding friction and improving fleet-level operational reliability.
- Analyzed cellular modem diagnostic logs (QXDM, Wireshark) and product usage data for Quectel, Sequans, and U-blox modems to drive data-informed product improvements.
- Integrated GenAI tools and prompt engineering into daily PM workflows to accelerate competitive analysis, user story creation, and technical document synthesis.

Business Development Manager — **UZILLION COMMUNICATIONS INC.**

Feb 2020 – Jun 2021

- Analyzed market access requirements, competitive landscapes, and enterprise customer requirements across North America and South Korea to shape strategic product offerings.

Technology Specialist (Wireless Technology Products) — **BELL MOBILITY** (Mississauga, ON)

Sep 2008 – Jan 2020

- Owned device qualification programs for major Tier-1 OEMs (Samsung, Apple, Motorola, BlackBerry), managing the launch of VoLTE, VoWiFi, eSIM, and enterprise wearables.
- Redesigned Bell's device certification process and automation framework as de-facto Chapter Lead / Scrum Master, **reducing qualification cycle times by 50%**.
- Partnered with cross-functional engineering, product marketing, and operations teams to define technical standards, user experience guidelines, and roaming capabilities.

- Terminal Development Specialist — TELUS MOBILITY** (Toronto, ON)

Jul 2007 – Aug 2008

 - Managed complete product qualification lifecycle for TELUS's CDMA device portfolio from procurement through certification and commercial launch.
 - Optimized defect tracking and resolution workflows in Quality Center, using prioritized field logs to accelerate OEM debugging and product quality releases.
- Project Manager — KOREA CULTURE CONTENT AGENCY** (Seoul, South Korea)

Mar 2003 – Apr 2005

 - Led strategic planning and technical infrastructure operations for wireless telecom initiatives and mobile content startups.
- Technical Project Manager — REAL NETWORKS, INC. KOREA** (Seoul, South Korea)

Jan 2001 – Mar 2003

 - Managed technical market readiness and product launch for Orange Israel's mobile platform services, aligning vendor deliverables with client requirements.

EDUCATION & CREDENTIALS

Master Certificate in Project Management — Schulich School of Business, York University	2012
Bachelor of Engineering in Computer Engineering — Catholic University of Korea	2001
